Melchor de Macanaz 2.14	ADMINISTRACIÓN DE EMPRESAS		cristina.diaz@uclm.es	Friday, you can send an email to the Professor

2. Pre-Requisites

There are no prerequisites to take this subject. Despite this, it is advisable that the student has passed the subject Foundations of Administration and Business Management (2^o course- Degree in Economics)

3. Justification in the curriculum, relation to other subjects and to the profession

The subject of Business Strategies fits into the fourth year of the degree in Economics. An optional subject of semi-annual character, deals with the different stages in the process of business management from strategic analysis to the study of business strategies and their implementation-control, allowing students to deepen the study of the strategic behaviour of organizations. The subject is integrated in Module 9, within the itinerary of the mention "Bases of business management". The completion of this mention will be included in the supplement to the title.

4. Degree competences achieved in this course**Course competences**

Code	Description
E01	Know the theoretical performance and the implications of the economic system in the production and financial fields, nationally and internationally
E02	Understand the role of institutions and economic agents in economic and social activities.
E03	Ability to find economic data and select relevant facts.
E04	Analytical skills to identify and anticipate relevant economic and legal issues and the different alternative solutions.
E05	Ability to contribute to the establishment of strategies which will allow for the efficient allocation of resources, the generation of wealth and a suitable distribution of income.
E06	Application of professional criteria to the analysis of problems, based on the use of technical tools.
E15	Ability to develop relevant financial information for business decision-making.
G01	Possession of the skills needed for continuous, self-led, independent learning, which will allow students to develop the learning abilities needed to undertake further study with a high degree of independence.
G02	Ability to understand the ethical responsibility and the code of ethics of professionals working in the field of economics. To know, respect and contribute to the fulfillment of the commitments related to gender equality, non-discrimination, human rights legislation and development cooperation.
G03	Develop oral and written communication skills in order to prepare reports, research projects and business projects and defend them before any commission or group of professionals (specialised or non-specialised) in more than one language, by collecting relevant evidence and interpreting it appropriately so as to reach conclusions.
G04	Ability for the use and development of information and communication technology in the development of professional activity.
G05	Capacity for teamwork, to lead, direct, plan and supervise multidisciplinary and multicultural teams in both national and international environments.

5. Objectives or Learning Outcomes**Course learning outcomes****Description**

Train the student to listen to and defend arguments orally or in writing

Train the student to search for information in order to analyze it, interpret its meaning, synthesize it and communicate it to others.

Train the student to work out problems in creative and innovative ways.

Train the student to raise the ethical exercise of the profession, becoming aware of social responsibility in decision-making

Additional outcomes

Train the students for using the models for external analysis - of the generic and specific environment-, the internal analysis of the company and, based on these, which strategies are best suited to corporate and competitive level

6. Units / Contents
