8. Evaluation criteria and Grading System

Evaluation System	Grading System		Description
	Face-to-Face	Self-Study Student	
Final test	70.00%	70.00%	Theoretical and practical exam. The total mark can be achieved through the realization of several controls and a final exam.
Practicum and practical activities reports assessment	30.00%	30.00%	Development and presentation of papers, reports, test ... that it will be held throughout the year. They will only be considered these assessment activities when exceeding the final test.
Total:	100.00%	100.00%	

Evaluation criteria for the final exam:

The final exam includes two parts, both of the same weight. The first part of the final test may be performed in the period examinations of the ordinary call of the first semester. Students who do not pass this first part or not made, will have to make a final trial that includes both parties in the ordinary call of the second semester. Only the rest of the evaluation criteria will be contemplated when the student has passed this final exam.

The final exam will be overcome when the student, both in the pimera part of the final exam and the second part (which, as already indicated, the second will be held with all of the subject or content of the second semester, if it has already passed the first part) has obtained a minimum of 4,5 points out of ten.

As already indicated, the average grade from both sides counted 70% of the final grade for the

course, with the other 30% of the final mark the rest of the assessment activities, provided that it has passed the final test. Failure to overcome this final test, the overall grade for the course will be only the average mark of the final test.

Specifications for the resit/retake exam:

Students who fail the course in the ordinary exam have the opportunity to stand for the final exam at the extraordinary call, taking into account the marks obtained in the other assessment activities.
