Evaluation criteria for the final exam:

Continuous assessment:

By default, the student will be assigned this type of evaluation: if the student does not want to be evaluated through continuous assessment in the ordinary call, he/she must expressly resign within the established period. By renouncing this call, the student also renounces the grades of the practices carried out until that moment, not being able to return to that evaluation afterwards, nor recover those grades. No minimum grades are established for any of the continuous assessment activities, so the course is passed with an overall grade (sum of the individual grades weighted for each of the assessment activities) of at least 50 points out of 100.

Non-continuous evaluation:

In order to qualify for this type of evaluation, the student must expressly waive continuous assessment following the procedure established for this purpose. There are no minimums for any part of the non-continuous assessment, so the course is passed with an overall mark of at least 50 points out of 100.

Specifications for the resit/retake exam:

Same as the ordinary one.

Specifications for the second resit / retake exam:

In this call, the student must carry out the evaluation corresponding to the non-continuous evaluation. In this call, the student must carry out the evaluation corresponding to the non-continuous evaluation. No minimums are established for any of the parts of the non-continuous evaluation, so the course is passed

with an overall mark of at least 50 points out of 100.
