4. Degree competences achieved in this course**Course competences**

Code	Description
E07	Understand the economic environment as a result and application of theoretical or formal representations on how the economy works. To do so, it will be necessary to be able to understand and use common handbooks, as well as articles and, in general, leading edge bibliography in the core subjects of the curriculum.
E11	Know the workings and consequences of the different economic systems
E12	Understand the role of institutions and agents in economic and social activities
G02	Ability to understand the ethical responsibility and the code of ethics of professionals working in the field of economics. To know and apply the legislation and recognition of human rights and questions of gender equality.
G03	Develop oral and written communication skills in order to prepare reports, research projects and business projects and defend them before any commission or group of professionals (specialised or non-specialised) in more than one language, by collecting relevant evidence and interpreting it appropriately so as to reach conclusions.
G04	Ability to use and develop information and communication technologies and to apply them to the corresponding business department by using specific programmes for these business areas.
G05	Capacity for teamwork, to lead, direct, plan and supervise multidisciplinary and multicultural teams in both national and international environments so as to create synergies which benefit organisations.

5. Objectives or Learning Outcomes**Course learning outcomes****Description**

Search for information, analysis, interpretation, synthesis and transmission.

Know the models and analysis techniques of the economic and legal environment to which companies are currently facing, with special attention to the search for opportunities and the anticipation of possible changes.

Know the main theories and approaches of economic analysis to be able to explain the behavior of economic agents at the micro and macroeconomic levels, as well as the imperfections that may arise in different sectors as a consequence of the economic process.

6. Units / Contents**Unit 1: Applied Economics: Basic Concepts****Unit 2: International Economic Growth and Development****Unit 3: The World Trading System****Unit 4: The International Monetary and Financial System****Unit 5: Regional Economic Blocs****ADDITIONAL COMMENTS, REMARKS**

The details of lessons, and the assessable activities and their completion date, will be provided in the Virtual Campus.

As: Assessable training activity

Com: Training activity of compulsory overcoming (It will be essential to overcome both continuous and non-continuous assessment).

8. Evaluation criteria and Grading System			
Evaluation System	Continuous assessment	Non-continuous evaluation*	Description
Other methods of assessment	30.00%	0.00%	
Final test	70.00%	100.00%	
Total:	100.00%	100.00%	

According to art. 4 of the UCLM Student Evaluation Regulations, it must be provided to students who cannot regularly attend face-to-face training activities the passing of the subject, having the right (art. 12.2) to be globally graded, in 2 annual calls per subject, an ordinary and an extraordinary one (evaluating 100% of the competences).

Evaluation criteria for the final exam:

Continuous assessment:

The final test will consist of two parts, a partial liberatory exam that will take place in the exam period of the first semester (subject will be released when a 4 out of 10 is passed in that test) and a second test in the exam period of the second semester. The grade obtained in the assessable activities will be added to the qualification of the final test when a minimum grade of 4 out of 10 is obtained in the final test. Those students who, even having carried out assessable activities, wish to be evaluated with the non-continuous evaluation criteria, they must communicate it to the teacher before the end of the class period.

Non-continuous evaluation:

The assessment will consist of a final exam that will include specific tasks in order to assess all the competences.

Specifications for the resit/retake exam:

In the resit/retake examen, the student will be allowed to recover learning outcomes through a final exam. Regarding the training activities carried out within the continuous assessment, the recovery of the skills associated with the assessable activities will be carried out through specific tests that can be included in the final test, being essential to notify the teacher before the beginning of the established period for resit/retake exams.

Specifications for the second resit / retake exam:

The evaluation will be carried out on a single written test, requiring a minimum score of 5 out of 10 to pass the course.
