Students must have passed English and Teaching II: English.

3. Justification in the curriculum, relation to other subjects and to the profession

Our XXIst Century society demands of its citizens the autonomous use of at least a foreign language, a tool that must be provided by compulsory education. Two relevant measures designed to reach that aim are the inclusion of a foreign language in the second cycle of Preprimary Education, and the popularity of linguistic projects, which for years have been growingly supporting plurilingualism.

The degree in Early Childhood Education must approach these needs, which have been evidenced in the labour market over the last years. The minor in Foreign Language: English address to the instruction of Early Childhood teachers into two directions: linguistic, with the acquisition and consolidation of English skills at a vantage level, and methodological, by means of a professionalizing review of the last trends in the teaching learning processes of this educational stage.

English as a Foreign Language for Early Childhood Education is a Practicum-related course and aims to provide student teachers with professional development for this educational stage in the context of nowadays practice, and the need to successfully address the challenges of plurilinguism, multiculturalism, European dimension, cooperative work, inclusion and the use of new technologies.

UCLM officially certifies the B2 to the students who complete this minor.
