**2. Pre-Requisites**

Not established

**3. Justification in the curriculum, relation to other subjects and to the profession**

Not established

**4. Degree competences achieved in this course****Course competences**

| Code  | Description   |
|-------|---|
| CB01  | Prove that they have acquired and understood knowledge in a subject area that derives from general secondary education and is appropriate to a level based on advanced course books, and includes updated and cutting-edge aspects of their field of knowledge. |
| CB02  | Apply their knowledge to their job or vocation in a professional manner and show that they have the competences to construct and justify arguments and solve problems within their subject area.  |
| CB03  | Be able to gather and process relevant information (usually within their subject area) to give opinions, including reflections on relevant social, scientific or ethical issues.  |
| CB04  | Transmit information, ideas, problems and solutions for both specialist and non-specialist audiences.   |
| CB05  | Have developed the necessary learning abilities to carry on studying autonomously   |
| CEE10 | Applied knowledge of renewable energies.  |
| CG03  | Knowledge of basic and technological subjects to facilitate learning of new methods and theories, and provide versatility to adapt to new situations.   |
| CG04  | Ability to solve problems with initiative, decision-making, creativity, critical reasoning and to communicate and transmit knowledge, skills and abilities in the field of industrial engineering.  |
| CG06  | Ability to handle specifications, regulations and mandatory standards.  |
| CG07  | Ability to analyse and assess the social and environmental impact of technical solutions.   |
| CT01  | Knowledge of a second language.   |
| CT02  | Knowledge and application of information and communication technology.  |
| CT03  | Ability to communicate correctly in both spoken and written form.   |
| CT04  | Knowledge of ethical commitment and professional ethics.  |

**5. Objectives or Learning Outcomes****Course learning outcomes**

Description

Knowledge of the energy framework for renewable energies.

Ability to handle specifications, regulations and typical mandatory standards. Regulations.

Applied knowledge of the different renewable energy technologies.

## 6. Units / Contents

Unit 1: Introduction

Unit 2: Wind power

Unit 3: Solar and geothermal energy

Unit 4: Biomass

Unit 5: Other energy sources and storage

## 7. Activities, Units/Modules and Methodology

| Training Activity                              | Methodology                      | Related Competences (only degrees before RD 822/2021)                           | ECTS     | Hours                                       | As | Com | Description |
|--|----------------------------------|---|----------|---|----|-----|-------------|

| <b>Total credits of out of class work: 3.6</b> |                                  |   |          | <b>Total hours of out of class work: 90</b> |    |     |             |

As: Assessable training activity

Com: Training activity of compulsory overcoming (It will be essential to overcome both continuous and non-continuous assessment).

## 8. Evaluation criteria and Grading System

| Evaluation System                                     | Continuous assessment | Non-continuous evaluation* | Description |
|---|-----------------------|----------------------------|-------------|
| Practicum and practical activities reports assessment | 5.00%                 | 5.00%                      |             |
| Progress Tests  | 35.00%                | 35.00%                     |             |
| Final test  | 60.00%                | 60.00%                     |             |
| <b>Total:</b>   | <b>100.00%</b>        | <b>100.00%</b>             |             |

According to art. 4 of the UCLM Student Evaluation Regulations, it must be provided to students who cannot regularly attend face-to-face training activities the passing of the subject, having the right (art. 12.2) to be globally graded, in 2 annual calls per subject, an ordinary and an extraordinary one (evaluating 100% of the competences).

## 9. Assignments, course calendar and important dates

| Not related to the syllabus/contents  |       |
|---|-------|
| Hours   | hours |
| Final test [PRESENCIAL][Assessment tests]                                       | 5     |
| Unit 1 (de 5): Introduction   |       |
| Activities  | Hours |
| Class Attendance (theory) [PRESENCIAL][Lectures]                                | 4     |
| Unit 2 (de 5): Wind power   |       |
| Activities  | Hours |
| Class Attendance (theory) [PRESENCIAL][Lectures]                                | 18    |
| Problem solving and/or case studies [PRESENCIAL][Problem solving and exercises] | 8     |
| Laboratory practice or sessions [PRESENCIAL][Practical or hands-on activities]  | 8     |
| Writing of reports or projects [AUTÓNOMA][Practical or hands-on activities]     | 65    |
| Unit 3 (de 5): Solar and geothermal energy                                      |       |
| Activities  | Hours |
| Class Attendance (theory) [PRESENCIAL][Lectures]                                | 3     |
| Problem solving and/or case studies [PRESENCIAL][Problem solving and exercises] | 1     |
| Laboratory practice or sessions [PRESENCIAL][Practical or hands-on activities]  | 5     |
| Writing of reports or projects [AUTÓNOMA][Practical or hands-on activities]     | 20    |
| Unit 4 (de 5): Biomass  |       |
| Activities  | Hours |

|   |                         |
|---|-------------------------|
| Class Attendance (theory) [PRESENCIAL][Lectures]                                | 3                       |
| Problem solving and/or case studies [PRESENCIAL][Problem solving and exercises] | 1                       |
| Laboratory practice or sessions [PRESENCIAL][Practical or hands-on activities]  | 2                       |
| Writing of reports or projects [AUTÓNOMA][Practical or hands-on activities]     | 5                       |
| <b>Unit 5 (de 5): Other energy sources and storage</b>                          |                         |
| <b>Activities</b>   | <b>Hours</b>            |
| Class Attendance (theory) [PRESENCIAL][Lectures]                                | 2                       |
| <b>Global activity</b>  |                         |
| <b>Activities</b>   | <b>hours</b>            |
| Laboratory practice or sessions [PRESENCIAL][Practical or hands-on activities]  | 15                      |
| Writing of reports or projects [AUTÓNOMA][Practical or hands-on activities]     | 90                      |
| Final test [PRESENCIAL][Assessment tests]                                       | 5                       |
| Class Attendance (theory) [PRESENCIAL][Lectures]                                | 30                      |
| Problem solving and/or case studies [PRESENCIAL][Problem solving and exercises] | 10                      |
|   | <b>Total horas: 150</b> |

| 10. Bibliography and Sources  |   |   |                   |                   |      |   |
