According to art. 6 of the UCLM Student Evaluation Regulations, it must be provided to students who cannot regularly attend face-to-face training activities the passing of the subject, having the right (art. 13.2) to be globally graded, in 2 annual calls per subject, an ordinary and an extraordinary one (evaluating 100% of the competences).

#### Evaluation criteria for the final exam:

##### Continuous assessment:

If a student has handed 50 per cent of the activities or the class period is finalised, the student will be evaluated through the continuous evaluation mode with no option to change the evaluation method. No minimum is set for any of the activities in the continuous evaluation. Hence, the subject is passed through an overall grade of at least 50 marks -addition of the weighted marks of each activity-.

##### Non-continuous evaluation:

To choose this type of evaluation, the student must ask for it explicitly, writing the lecturers before the end of October -approximately mid-semester-.

May the student not have asked lecturers by this time, they will have done 50 per cent of the assignments and, thus, they will be in continuous evaluation with no option to change. No minimum grade is required in any part of the subject, so, the subject is passed with an overall grade of at least 50/100 marks.

#### Specifications for the resit/retake exam:

In this call, the student shall be evaluated according to the non-continuous evaluation criteria. No minimum is established for any of the parts of the non-continuous evaluation, so the course is passed with a global grade of at least 50 points out of 100.

#### Specifications for the second resit / retake exam:

In this call, students must do the non-continuous evaluation. No minimum grade is required in any part of the subject, so, the subject is passed with an overall grade of at least 50/100 marks.
