## 2. Pre-Requisites

Not established

## 3. Justification in the curriculum, relation to other subjects and to the profession

Not established

## 4. Degree competences achieved in this course

## Course competences

Code	Description
CB05	Have developed the necessary learning abilities to carry on studying autonomously
E15	Understanding theoretical, historical, cultural, political, environmental and references that make the human being lie in the heart of education
E22	Educational counselling and support skills of individuals and groups
G01	Communicative and relational ability when working with individuals and groups
G03	Observation capacity and self-oriented learning within the framework of social and personal interaction with a wide range of agents, groups and sociocultural contexts
T13	Ability to adapt to new and complex situations, to innovate and establish an educational relationship based on the development of individual autonomy and collective responsibility

## 5. Objectives or Learning Outcomes

## Course learning outcomes

## Description

Know how to develop social intervention strategies based on the evolutionary characteristics of a population and develop programs that show the interaction between the evolutionary stage and the socio-educational intervention.

Know the evolutionary stages throughout the life cycle and its repercussion in the social relationship as well as the psychological theories that analyze the evolutionary changes in function of the social and economic contexts of the population.

## 6. Units / Contents
