3. Justification in the curriculum, relation to other subjects and to the profession

This course unit, "CURRICULAR DESIGN AND DEVELOPMENT OF PHYSICAL EDUCATION IN PRIMARY EDUCATION" complements the first year degree training of the future Physical Education teachers. With this second contact with PE Didactics, it is expected that students both master the contents of the course unit and are able to program and apply them in a reasonable and critical way at the different curriculum levels. So through these different kinds of tasks and activities related to Physical Education, the students will have to use with consistency the curriculum elements, lesson design and planning, use different teaching strategies or apply different assessment instruments, among other things. This course unit will qualify the future Primary teachers' training to promote and facilitate knowledge and competences from the Physical Education curriculum in Primary Education. To this end, the course unit shall provide a theoretical framework and a wide range of practical proposals that approach the student for their future teaching career.

4. Degree competences achieved in this course

8. Evaluation criteria and Grading System			
Evaluation System	Continuous assessment	Non-continuous evaluation*	Description
Assessment of problem solving and/or case studies	20.00%	20.00%	Practical case. (Questions about the practical contents of the course). Compulsory and rescheduling. Minimum mark required 4 points (5-10 points).
Final test	50.00%	50.00%	Theory and practical exam about all the contents. Compulsory and rescheduling. Minimum mark required 4 points (5-10 points exam).
Assessment of active participation	20.00%	20.00%	Written and oral presentations about the theory and practical lessons. contents learned at the practical lessons. Not just to attend all the lessons. Non compulsory. Non rescheduling. It will be necessary to attend at least 80% to the practical lessons to be assessed in this part. No justification permitted. This 20% will be reached when you participate in an active way in the practical lessons (gym and class lessons). It is not just to attend to the lessons, but participate in discussion groups, critical and reflective attitude towards the daily lessons.
Portfolio assessment	10.00%	10.00%	Collaborative work. Readings, reflections and theoretical works in the lessons. Non compulsory and rescheduling.
Total:	100.00%	100.00%	

According to art. 4 of the UCLM Student Evaluation Regulations, it must be provided to students who cannot regularly attend face-to-face training activities the passing of the subject, having the right (art. 12.2) to be globally graded, in 2 annual calls per subject, an ordinary and an extraordinary one (evaluating 100% of the competences).

Evaluation criteria for the final exam:

Continuous assessment:

The ordinary assessment of the student will be according to these parts:

- 1.- 50%: Mark of the Theoretical exam about the studied contents.
- 2.- 20%: Practical case exam related with the physical Education curriculum design.
- 3.- 20%: Presentations of theoretical and practical contents learned during the practical lessons.
- 4.- 10%: Readings, reflections and theoretical contents in the lesson.

It will be necessary to demonstrate a minimum (4 out of 10 scale), both in the written final exam as in the practical case exam to be able to pass and take into account the rest of the assessed items.

For every mistake of those included in the "List of mistakes to avoid" (see Moodle), the student will miss 0.2 points in the corresponding activity (test, presentation or exam) up to a maximum of 1.6 points (8 mistakes). If the mistake is repeated, the repetition(s) will be also penalized.

and show progress in the performances of the practical lessons to achieve this 20% of the mark. It depends on the given Workshops and the attendance.

This 20% is not rescheduled. In case of no attendance, the students assume that they will have the final exam (50%), the practical was (20%) and both will take place the same day of the exam (Date of the faculty Calendar). And also they will have to submit all these projects on the last day of class. The students who cannot attend will have this 10% (Portfolio) will other Readings and Theoretical works.

The assessment of active participation in the practical lessons, as well as register information that can be extracted from it is a non recoverable activity (Art. 4.7. Reglamento de Evaluación del Estudiante), due to the need to get some learning outcomes in practical activities such as sport initiation, health and sport, body image and body language.

These learning outcomes are essential to get the key competences through the practical lessons : 1.2.3.II.03, 1.2.5.II.04, CB02,CB03,CB04,CG10,CT03.

According to the 9.1. "Reglamento del Estudiante": "If any student is caught cheating or breaking the rules of any of the tests, works or projects, their make

will be 0"

** If applicable , any modifications or adaptations needed in the teaching guides as a result of a change in the teaching or evaluation model derived from the evolution of the pandemic will be documented in a later addendum." If a fraudulent practice is detected in the evaluation test carried out by a student, the exam will result into failure, with a final grade of zero (0) in the corresponding subject.

The detection by the teacher that an assignment, essay or similar test has not been prepared by the student will result in a numerical grade of zero (0) both in the tests and in the subject in which it has been detected, regardless of the rest of the grades obtained by the student.

(See Article 8 of the UCLM Student Assessment Regulations)."

Non-continuous evaluation:

The ordinary assessment of the student will be according to these parts:

- 1.- 50%: Mark of the Theoretical exam about the studied contents.
- 2.- 20%: Practical case exam related with the physical Education curriculum design.
- 3.- 20%: Presentations of theoretical and practical contents learned during the practical lessons.
