Course learning outcomes

Description

Conveying information, ideas, problems and solutions related to the procedural legal system, both to an expert audience and in professional forum

Choose the different strategies to be adopted before the courts in defence of their claims on a well-founded and legally rigorous basis

Knowing and managing the structure, elements and requirements (common and differential) of the jurisdictional processes, and learn how to identify the requirements that the procedural norms enforce on each procedural action.

Clearly define and precisely explain the institutions that make up the procedural legal system, as well as the principles and procedural guarantees that govern them and their interpretation by the courts.

Draft the basic legal documents required in each of the procedural steps in a technically and formally correct manner and control the use of forensic legal language.

Apply the knowledge and competences acquired to their work or vocation in a professional manner, with ethical responsibility in their practice.
