

1. General information

Course: SOCIAL SCIENCES II: TEACHING HISTORY

Type: CORE COURSE

Degree: 392 - BACHELOR'S DEGREE IN PRIMARY EDUCATION (AB)

Center: 101 - FACULTY OF EDUCATION IN ALBACETE

Year: 2

Main language: Spanish

Use of additional
languages:

Web site:

Code: 46314

ECTS credits: 6

Academic year: 2023-24

Group(s): 17 18 19 15

Duration: C2

Second language: English

English Friendly: N

Bilingual: Y

Lecturer: FRANCISCO DE BORJA CAPARROS RUIPÉREZ - Group(s): 18

Building/Office	Department	Phone number	Email	Office hours
FACULTAD DE EDUCACIÓN	HISTORIA	967599200	Borja.Caparros@uclm.es	The information about timing and place of the meetings is included in Virtual Campus and on the Notice Board of the Department

Lecturer: RAMON COZAR GUTIERREZ - Group(s): 17

Building/Office	Department	Phone number	Email	Office hours
FACULTAD DE EDUCACIÓN	HISTORIA	967599200	ramon.cozar@uclm.es	The information about timing and place of the meetings is included in Virtual Campus and on the Notice Board of the Department

Lecturer: MARÍA DE LOS LLANOS PÉREZ GÓMEZ - Group(s): 15

Building/Office	Department	Phone number	Email	Office hours
FACULTAD DE HUMANIDADES	HISTORIA	967599200	MariaLlanos.Perez@uclm.es	The information about timing and place of the meetings is included in Virtual Campus and on the Notice Board of the Department

Lecturer: MARIA DEL MAR SIMON GARCIA - Group(s): 19

Building/Office	Department	Phone number	Email	Office hours
FACULTAD DE EDUCACIÓN	HISTORIA	967599200	mmar.simon@uclm.es	The information about timing and place of the meetings is included in Virtual Campus and on the Notice Board of the Department

2. Pre-Requisites

Not established

3. Justification in the curriculum, relation to other subjects and to the profession

This subject contributes to the training of Primary School Teachers-to-be. It is related to the area of "Social Science" teaching, which appears in the curricular framework current, in which it is established and in compliance with the basic curriculum in Primary Schools, with all other disciplines that study people as social beings and their reality in their own geographical, sociological, economic and historical aspects.

The subject is included in the curriculum of the Degree in Primary Education as General Training in the Block 1.2 Teaching and Specific Area Requirements, within the module 1.2.1. Teaching and Learning of Experimental Sciences and Social Sciences

4. Degree competences achieved in this course

Course competences

Code	Description
1.2.1.II.07	Understand the basic principles of social sciences.
1.2.1.II.08	Take account of the Primary school curriculum of social sciences and relate it to the content of social sciences in the Degree in Primary Education.
1.2.1.II.09	Integrate history and geography cultural content and its teaching.
1.2.1.II.10	Foster democratic citizenship education and critical thinking and social practice.
1.2.1.II.11	Appreciate the significance of state and private institutions for peaceful coexistence.
1.2.1.II.12	Know the religious facts throughout history and their relationship to culture.
1.2.1.II.13	Design and evaluate curricular contents through suitable teaching resources and promote the corresponding competences among students.
CB01	Prove that they have acquired and understood knowledge in a subject area that derives from general secondary education and is appropriate to a level based on advanced course books, and includes updated and cutting-edge aspects of their field of knowledge.
CB03	Be able to gather and process relevant information (usually within their subject area) to give opinions, including reflections on relevant social, scientific or ethical issues.
CB04	Transmit information, ideas, problems and solutions for both specialist and non-specialist audiences.
CG10	Reflect on classroom practice to allow innovation and improvement of the teaching practice. Acquire habits and skills for autonomous and cooperative learning and promote it among pupils.
CG11	Know and apply information and communication technology in the classroom. Select audiovisual information which contributes to learning, civic training and cultural richness.
CG13	Promote respect for constitutional rights and equality between men and women.

5. Objectives or Learning Outcomes**Course learning outcomes**

Description

Understand the basic principles of natural sciences

Know how to identify, establish and relate conceptual basis that define the didactics and the epistemology of History and Geography

Know how to analyse didactic programming in History cycles, Geography and other Social Sciences along the Primary Education period

Develop units and syllabi based on contents of the field of knowledge

Identify, classify and elaborate different learning activities to teach History, Sciences and other Social Sciences

Know how to adapt one's self to social, economic and cultural changes and apply this to the knowledge of social sciences

Know how to integrate the new technologies, both computer and audiovisual support, in the teaching of history, geography and other social sciences

Know how to integrate the geographic and historical study from an instructive and cultural orientation

Know how to present the process of conceptualizing the time in general and the historical time in particular (succession, simultaneity, duration rhythm, etc..) between 6 and 12 years

Know how to identify the contents, techniques, methods and evaluation criteria of each discipline in the Geography and History curriculum of Primary Education

Promote the cultural identity development through the historic and social knowledge

Be able to recognise the religious fact along the history and its relation with culture

"Know how to present and apply suitable techniques and methods of History (time categories, representations of cycles and periods, use of historical sources, use of specific vocabulary, develop hypothesis, etc.) of Geography (orientation and measure of space, graphic representation and cartography, direct observation, analysis of the landscape, etc.) and of other Social Sciences (quantitative and qualitative methods of Social Sciences, case study, etc.)"

6. Units / Contents**Unit 1: Concept and method of History. The curriculum of Primary Education. Technical and didactic resources.****Unit 2: Prehistory- Ancient Age.****Unit 3: Middle Ages. Process of formation and political integration. Co-existence and conflict between cultures.****Unit 4: Modern Age.****Unit 5: Contemporary Age. Our recent History. Human Rights.****7. Activities, Units/Modules and Methodology**

As: Assessable training activity

Com: Training activity of compulsory overcoming (It will be essential to overcome both continuous and non-continuous assessment).

8. Evaluation criteria and Grading System

Evaluation System	Continuous assessment	Non-continuous evaluation*	Description
			Final test, in which the learning and the competences acquired

Final test	60.00%	70.00%	by the students may be proven, with a test with theoretical and practical questions. It will be necessary to obtain a minimum of 4 out of 10 points in this evaluation system to be able to average with the rest of the evaluable activities. You can recover in the extraordinary test, evaluating the same competences as in the ordinary call.
Oral presentations assessment	20.00%	0.00%	Realization of theoretical and practical projects in group and individually. Its exposition in the classroom will be valued, with special attention to active participation and significant contributions. It will be necessary to obtain a minimum of 4 out of 10 points in this evaluation system to be able to average with the rest of the evaluable activities. You can recover in the extraordinary test, evaluating the same competences as in the ordinary call.
Portfolio assessment	20.00%	30.00%	Elaboration of a Portfolio in which the results of the formative activities made in the subject will be collected. It will be necessary to obtain a minimum of 4 out of 10 points in this evaluation system to be able to average with the rest of the evaluable activities. You can recover in the extraordinary test, evaluating the same competences as in the ordinary call.
Total:	100.00%	100.00%	

According to art. 4 of the UCLM Student Evaluation Regulations, it must be provided to students who cannot regularly attend face-to-face training activities the passing of the subject, having the right (art. 12.2) to be globally graded, in 2 annual calls per subject, an ordinary and an extraordinary one (evaluating 100% of the competences).

Evaluation criteria for the final exam:

Continuous assessment:

The final mark will be the sum of the partial marks obtained in the different evaluation systems previously expressed.

It is essential to obtain 40% of the qualification (4 out of 10) to make the average between compulsory training activities applicable.

Students that don't follow the continuous assessment proposed will have to do, for the day of the final test, all the exercises proposed in the evaluation system and that will be detailed on virtual Moodle.

For every mistake of those included in the "List of mistakes to avoid" (see Moodle), the student will miss 0.2 points in the corresponding activity/test/presentation/exam up to a maximum of 1.6 points (8 mistakes). If the mistake is repeated, the repetition(s) will be also penalized.

*If a fraudulent practice is detected in the evaluation test carried out by a student, the exam will result into failure, with a final grade of zero (0) in the corresponding subject.

The detection by the teacher that an assignment, essay or similar test has not been prepared by the student will result in a numerical grade of zero (0) both in the tests and in the subject in which it has been detected, regardless of the rest of the grades obtained by the student.

(See Article 8 of the UCLM Student Assessment Regulations).

Non-continuous evaluation:

Students who opt for the non-continuous assessment system must communicate this to the teachers in the first three weeks of the course. Also, those students who have exceeded 50% of the evaluation activities through the continuous evaluation system will not be able to change into non-continuous evaluation.

For the non-continuous evaluation, students must present or defend on the day established for the final test all the exercises proposed in the evaluation systems that will be detailed in the moodle virtual platform.

*If a fraudulent practice is detected in the evaluation test carried out by a student, the exam will result into failure, with a final grade of zero (0) in the corresponding subject.

The detection by the teacher that an assignment, essay or similar test has not been prepared by the student will result in a numerical grade of zero (0) both in the tests and in the subject in which it has been detected, regardless of the rest of the grades obtained by the student.

(See Article 8 of the UCLM Student Assessment Regulations).

Specifications for the resit/retake exam:

For the extraordinary exam, students, apart from the final exam, may or may not maintain the grades obtained in the continuous assessment. If they decide not to keep the grades obtained in the continuous evaluation, the student must submit all the assignments of the course.

The grade of the continuous evaluation will not be maintained for the next course.

*If a fraudulent practice is detected in the evaluation test carried out by a student, the exam will result into failure, with a final grade of zero (0) in the corresponding subject.

The detection by the teacher that an assignment, essay or similar test has not been prepared by the student will result in a numerical grade of zero (0) both in the tests and in the subject in which it has been detected, regardless of the rest of the grades obtained by the student.

(See Article 8 of the UCLM Student Assessment Regulations).

Specifications for the second resit / retake exam:

For the special exam, the same criteria are established as for the extraordinary exam.

*If a fraudulent practice is detected in the evaluation test carried out by a student, the exam will result into failure, with a final grade of zero (0) in the corresponding subject.

The detection by the teacher that an assignment, essay or similar test has not been prepared by the student will result in a numerical grade of zero (0) both in the tests and in the subject in which it has been detected, regardless of the rest of the grades obtained by the student.

(See Article 8 of the UCLM Student Assessment Regulations).
